

KARANODAKA HIGHLIGHTS

AUGUST 2026 EDITION

AUGUST, IN A FEW MOMENTS

August was a month of new conversations, important milestones and people coming together.

From industry events and client interactions to certifications and new team members, there was plenty happening at Karanodaka.

Here's a quick look at the month.

A MILESTONE WE'RE PROUD OF

Quality Management

ISO 9001 reflects our commitment to consistent quality, well-defined processes and continuous improvement across our operations and services.

Information Security

ISO 27001 demonstrates our commitment to protecting information, managing security risks and maintaining strong information security practices.

A milestone for the company, and a moment of pride for the team.

OUT THERE, LEARNING & CONNECTING

IBC SAFE Conclave & Awards 2026

Our Founder & MD, Divya S., represented Karanodaka at the Chennai edition, connecting with EHS leaders and exploring the future of safety, sustainability and digital transformation.

FICCI DT10 AI Summit & Exhibition 2026

A great platform to connect with industry leaders and explore the growing role of AI, responsible innovation and digital transformation in shaping the future.

Iron Lady – Walk to the Board

An inspiring gathering of women leaders and professionals, offering meaningful conversations around leadership, resilience, collaboration and professional growth.

Our Founder & MD, Divya S., also joined Leadership Lounge – Episode 39 to talk about purpose, growth and leadership.

LEADERSHIP LOUNGE

– EPISODE 39

Our Founder & MD, Divya S., joined The Leadership Lounge – Episode 39 for an insightful conversation on “When Purpose Becomes a Business, Can You Grow Without Losing Why You Started?”

The discussion explored how vision, values, clarity and consistency shape sustainable growth and why successful leadership is about staying grounded in purpose while building for the future.

A thoughtful conversation on growing a business without losing the reason you started it.

A CLOSER LOOK AT SAFENOD

1. EHS Core

19 Integrated Modules Plus 3 Sensors

Complete digital coverage across all aspects of Environment, Health, Safety & Compliance (EHS) through a unified platform that streamlines operations, standardizes processes, and ensures regulatory compliance.

Key Benefit: End-to-end safety workflows for operational excellence.

2. AI Risk Engine

Predict. Prevent. Protect.

Advanced Artificial Intelligence and Computer Vision continuously analyze real-time data from multiple sources to detect hazards early, assess risks, and predict potential incidents before they occur.

Key Benefit: Data-driven insights for proactive decisions and incident prevention.

3. AI Intelligence

100% Accurate Intelligence

AI analyzes data from HIRA, CAPA, incidents, inspections, and audits to identify patterns, predict risks, recommend corrective actions, and support faster decision-making.

Key Benefit: Enhances HIRA and CAPA accuracy with AI-powered insights, predictive analytics, and intelligent decision support.

By making reporting simpler and more conversational, we can help teams capture what happened, faster and give them a better starting point for action and learning.

Because sometimes, making safety better starts with making it easier to speak up.

TECHNOLOGY, BUT WITH PEOPLE AT THE CENTRE

At Karanodaka, our work spans AI, digital transformation, cybersecurity and EHS technology.

But the starting point is usually much simpler:

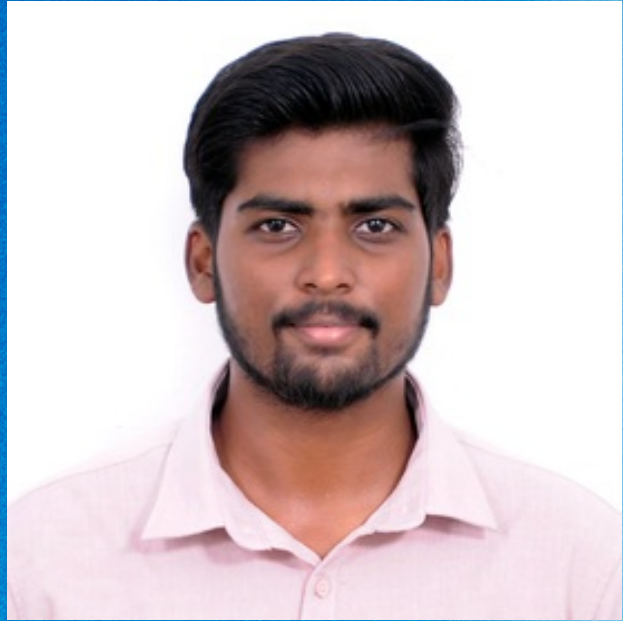

Listen to the problem. Understand how people work. Then build.

Whether we're working with safety teams or helping businesses navigate digital challenges, our focus is on creating technology that is genuinely useful.

Good technology should make work easier not make it more complicated.

WELCOME TO THE TEAM

We're excited to welcome the newest members of the Karanodaka family!

Indrajit

Kaviya

Harish

Krupa Kiran

Ankitha

New faces, fresh perspectives and new energy.

Welcome aboard! We're happy to have you with us.

CELEBRATING EXCELLENCE

A big shoutout to our August Best Performers!

Diksha Dwivedi

Enbaraj

Thank you for your dedication, effort and contribution to the team.

Keep inspiring. Keep growing. Keep shining!

GET IN TOUCH Let's Build What's Next

The most forward-thinking leaders aren't just adopting new tools, they're redefining how business is done.
